	lack of desire from other regional local authorities to participate.
Review to further develop and promote guidance on involving users in the procurement process working with them to provide training and improved awareness on their role in the procurement and commissioning process such as the better evaluation tenders in terms of cost and quality.	Whilst achievement was made in respect of Mears' Housing Reactive Repair Contract, where this fully involved housing tenant representatives being trained and then involved in all aspects of the process, this model needs to be reviewed to see if it would be appropriate and proportionate for other procurement processes. Target March 2013
Review and set up reporting feedback processes to ensure procurement and commissioning processes are developed and based on users needs. Further develop procurement good practice guide and toolkit and to disseminate procurement advice, guidance and gateway reviews to client officers acting as contract administrators for strategic projects	Carry out as part of the general review of procurement and tendering processes. Target March 2013 Whilst there was previously some achievement; in response to Internal Audit recommendations, progress was limited due to other priority work pressures. A review of the need and focus for this should receive higher priority for exploration. Target March 2013
e-PROCUREMENT Review opportunities for integration of all the Council's e- procurement solutions with the corporate financial systems to streamline the procurement process and maximise transactional savings.	As above but target March 2013
Ensure all sourcing and routine procurement activity across the Council is undertaken electronically as far as is possible.	Whilst previously achieved; for those procurements managed centrally, the progress in electronic procurement in other areas needs to be reviewed to see if this can be expanded more widely across services. Target March 2013
Work with Devon Procurement Partnership and SWRIEP to identify opportunities to share expertise and maximise competitive advantage.	Whist collaborative procurements have been undertaken on diverse contracts such as recovery of abandoned vehicles and stair lift installations the derived benefits of same have to date been limited. Whilst collaboration is valuable it is important that these partnerships are seen to focus in future on driving opportunities and benefits that can be specifically exploited by Exeter City Council. Target March 2013
Work with Devon Procurement Partnership to particularly review and prioritise the drive for greater cooperation in the wider use of e procurement facilities in Devon such that the use of existing available information technology software is better utilised to deliver savings in the cost of administrative procurement processes.	Previous collaboration with Devon Procurement Partnership in relation to e procurement has not brought significant success due to the need for ECC to commit resources to other priorities. However, ECC's resource position is not unique in Devon. This has already been identified by DPP and the DPP is now considering how greater cooperation in terms of e procurement mentoring can be developed to address council learning resource issues so to drive the wider use of available e

	procurement software. Target March 2013
EQUAL OPPORTUNITIES	
As part of the review to simplify existing project value categories that suppliers can apply for as detailed under PROCUREMENT above, a lower level of project value will be set, at under £10,000. In this category less stringent qualifications will be set to encourage and provide better opportunity for small business, that being those with less than 5 employees, to win work from the council	New levels to be set in place, target December 2012
Review the take up of contract opportunities by Small and Medium Enterprises, Black Minority Ethnic, Disabled and Women only organisations	As not yet sufficiently successful need to consider development of joint approach with other authorities in Devon. Target March 2013
Review the need to further improve the 'Selling to the Council' web pages so better aimed to encourage local businesses and assist SME involvement in council tenders in accordance with the Glover Report recommendations.	Some improvements already in place such as 'Exeter Buy and Sell Prosper' linked to Selling to the Council website to encourage SME involvement. However consider if further improvements are needed. Target December 2012
