

Cllr. Stella Brock,

The Licensing Dept,
Exeter City Council,
Paris Street,
Exeter

Dear Sirs,

Re:Application from Costcutter 12/13 -Variation of License

I am writing to raise concerns regarding the above application, under Public safety and Prevention of public nuisance of the 4 licensing objectives.

This store currently closes at 11pm and now wishes to open until 2am with the provision of sale of alcohol.

Residents who live opposite these premises have questioned "who is walking the streets at this time of the morning unless they have been "clubbing" and already consumed alcohol ?

Public safety must be questioned. The premises next door is a taxi office and many people queue here for their services, many already having had too much to drink and the opportunity whilst waiting for a taxi to buy and consume even more alcohol , could easily lead to disorder and raise issues over public safety.

Prevention of Public Nuisance. There is already a level of disturbance to residents who actually live in South Street, due to late night/early morning eating and taxi facilities, the opportunity to buy more alcohol (and consume) whilst on the street raises more concerns on the issue of public nuisance.

Drinking on the street would be in direct conflict with the DPPO or the new PSPO when it comes into force, and would need to be monitored.

Granting premises further/extended alcohol licenses when it will be in direct conflict with these protection orders seems irresponsible.

There seems no justification or necessary need for this store to be open until 2am for the sale of alcohol.

30th September 2015

Dear Sirs

Application for a Variation of the Premises Licence for Newham Stores
12-13 South Street Exeter EX1 1DZ

*The Variation to Extend Hours for the sale of Alcohol to Monday - Sunday
0600 -0200*

The Prevention Of Crime And Disorder

We wish to register our Objections with regard to the above application:

Giving the people who are leaving the Pubs and Clubs and are waiting for taxis easy access to more alcohol will increase the noise and disturbance and increase drinking on the street.

We already experience revellers urinating on our steps in George Street and vomit + urine in the alley leading from South Street to George Street. Being able to obtain more alcohol will increase this problem.

There will be an increase in customers in cars coming to South Street to purchase alcohol causing yet more noise and disturbance.

We understand people need to enjoy themselves but we as residents of South Street also need to sleep before 2am.

Yours faithfully

Received via email 14 October 2015

I hear by object to the application for the above license due to being a frequent visitor to this area and viewing the effect of alcohol relate incidents in south street every weekend.

People falling over in the street and the road way, people being sick by the fast food takeaways and people urinating in the area opposite KFC fast food chain, I have talked to a couple of the branded supermarkets managers in the area, none of the supermarkets in the area sell Alcohol pass 12 midnight and when you talk to the managers of the supermarkets, they have been also asked to restrict the sale of Alcohol from 2300 hrs by the local police force to help them reduce the number of incidents of unsociable behaviour.
