**About this document**

- 1 This document is a receipt style certificate telling you that an MOT Test pass result has been recorded in the Driver & Vehicle Standards Agency's (DVSA's) database of MOT Test results; this can be verified at [www.gov.uk/check-mot-status](http://www.gov.uk/check-mot-status).
  - 2 A test certificate relates only to the condition of the components examined at the time of test. It does not confirm the vehicle will remain roadworthy throughout the validity period of the certificate.
  - 3 Check carefully that the details are correct.
  - 4 Whilst advisory items listed above do not constitute MOT failure items, they are drawn to your attention for advice.
  - 5 For further information about this document, please visit [www.gov.uk/getting-an-mot](http://www.gov.uk/getting-an-mot) or contact DVSA on 0300 123 9000\*.

## VEHICLE EXAMINATION REPORT

### YOUR ATTENTION IS DRAWN TO THE TERMS AND CONDITIONS BELOW

The examination of the vehicle described in this report was of a purely external, visual nature and excludes any dismantling. No responsibility can be accepted for defects not visibly present at the time, or those not detected which fall outside the scope of the examination and (where possible) its limited road test. Road tests, when possible, are conducted for a limited duration and exclude high speed testing.

The accuracy of the instrumentation within the vehicle (speedometer, odometer, fuel and temperature gauges etc.), cannot be verified, neither can the future life expectancy of the clutch and brake linings, or the failure of mechanical components in the future. Statements on fuel and oil consumption levels will also be excluded.

## Essential & Desirable Repairs

It is strongly advised that the essential defects are investigated immediately or rectified prior to purchase of the vehicle and desirable repairs are carried out in the near future. Some defects may prove costly to rectify and this must be considered prior to purchase or authorising any remedial work.

### Attention

Some vehicles are provided with a master key, which can be extremely costly to replace (sometimes in excess of £1000) as, in some cases, if the master key is missing the Engine Control Unit (ECU) may have to be replaced should you encounter problems. As well as this, some radios have codes to allow them to operate. Please satisfy yourself that you have all relevant keys and codes. You should also ensure you are given all relevant instruction manuals for the vehicle, radio, alarm and immobilisers as necessary
