Subject: Polling Districts & Polling Places

Hi Jeff

Thanks for sending the consultation document across to me. I'm really pleased that the existing polling stations are planned to stay as they are on campus, with the same number retained as before. Whilst ideally one of the locations would be more central (in order to help us drive footfall on the day), we appreciate this isn't possible due to the selection being based on geographical location and need to serve the wider community. Furthermore, we appreciate that any additional requests couldn't be considered due to the cost involved for the Council.

To that end, we're happy with the proposals you make and will continue to do all we can with voter registration drives at the appropriate times in the year.

Best wishes,

Gareth
