

## Appendix C

Received via email 3 May 2017

'Good Morning Caroline. Thank you for your prompt reply and clarity. I would object under the the headings of public nuisance and crime and disorder for Meat 59s application for a alcohol license from 8 am. They do not need to serve alcohol at this time in the morning, continuity of service is not a good reason in this case. Magdalen road is very special and we aim to attract residents, office workers, students, Army and Police. There is only one type of person who would wish to take alcohol before 10 am and I am surprised that the council would even entertain this application. Also the council has not considered the extra rubbish that will be generated. I see no extra bins and the council hardly bothers to sweep the street nowadays. Please can you tell me who has permission for takeaway food and drink? Olivers, Bon Gout and magdalen bakery are all offering takeaway food and drink. Also Magdalen bakers offer sit down eating within, but do not provide a customer toilet. They also have constructed a bench outside on the pavement, do they have a pavement license? This may all sound like I am complaining about everyone, but we always seem to be among the few businesses in Magdalen road who applies for all the right permissions and pay for them, others just seem to do what they want, therefore, not a level playing field. Owning a small shop in Exeter is not easy, there are many costs and long hours and I think the council could do a lot more to support Magdalen road which is pretty much the last refuge from the multi nationals in exeter city center,
