Hi Caroline,
in regard to the event on Saturday 8th July.

As I know there are currently some sensitive issues going on regarding our current application of varying the premises license, I wanted to go with running the event to prove that it can be done with no trouble and as little nuisance to neighbours as possible.

With this in mind, I held the live music in the garden from 5pm until 9pm and it stopped no later than 9pm. There was no recorded music in the garden after 9pm. I stopped it at 9 as I felt this was adequate and would hopefully show neighbours that I wouldn't be carrying on late into the night.

The bar closed at 11pm on the dot and majority of punters had dispersed by 11.30 with the remaining few that were waiting for taxis gone by 11.45.

I felt it better to let them wait in the pub than on the street corner.

The doors to the pub were closed by 11.30 with no one else entering.

We did run an outside bar to relieve the pressure inside and I ran it myself to ensure it was done properly. It was open from 5-8pm.

There were no unsavoury people in our establishment that day and no trouble whatsoever. I didn't have any need to ask anybody to leave and as far as I'm concerned it was a very successful day with no problems. The music was played at a sensible level. People were pre-warned from our flyer.

Thanks
Ed
