Thank you [@DustcartDenis](#) for my everlasting cup. A cold drink in it today I think.

#Exeter residents: don't #recycle topless.

KEEP YOUR TOPS ON

We'll recycle
the top and the
bottle
together.

(If you put
them in the
green bin
separately,
the lids will
fall through
the machines.)

FOOD WASTE TOP TIP #1

Gravity is the Marmite Lover's Friend.

Put the 'empty' jar upside-down in the cupboard when you can't scrape any more Marmite out with your knife. In the morning, you'll probably have enough in the lid for two more slices of toast. Unless you're one of those hardcore Marmite types whose toast ends up looking like a freshly laid road.

Harry Baker Wish Teignbridge did that! Pretty much all that goes in the landfill bin is wrapping and nappies now!

No need to wash out your recycling in Exeter.

If you can give it a quick swill, great, but don't be too fussy.

We will gladly take an un-rinsed plastic milk bottle or a tin with a smear of sauce in it. Just make sure everything is empty of food and liquid so that it doesn't contaminate the rest.... [See more](#)

Heather-Chris Gould I prefer to wash my recycling. I don't want two smelly wheelie bins

New glass banks on Prince of Wales Road. Much needed recycling point in this area of the city, on the thoroughfare to the University.
