Strata are over committed and staff are under too much pressure, not enough capacity so can't keep up with workload. Need to be more realistic about what can be achieved with capacity available / employ more staff.	14
Fairer pay against each other, market rates.	5
Strata needs to communicate better to customers.	4
Everyone is expected to be excellent at customer care, databases, information security and multiple other skills. It's not possible to be great at all those things. Have specific people for specific roles.	4
Managers need to talk to each other before giving work to already busy staff that they don't manage.	3
I would like the chance to work from home more.	3
