E geri.n.daly@uk.gt.com

This paper provides the Audit and Governance Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

David Bray

Engagement Manager

E david.bray@uk.gt.com

Members of the Audit and Governance Committee can find further useful material on our website (www.grant-thornton.co.uk) where we have a section dedicated to our work in the public sector and where you can download copies of our publications.

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

Progress at 15 February 2019

Financial Statements Audit

We have started planning for the 2018/19 financial statements audit and have issued a detailed audit plan, setting out our proposed approach to the audit of the Council's 2018/19 financial statements. This is a separate agenda item for the Audit and Governance Committee meeting on 13 March 2019 and have reported findings from this work to you on page 6.

The statutory deadline for the issue of the 2018/19 opinion is 31 July 2019. We will discuss our plan and timetable with officers.

The findings will be reported to you in the Audit Findings Report.

Value for Money

The scope of our work is set out in the guidance issued by the National Audit Office. The Code requires auditors to satisfy themselves that; "the Council has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources".

The guidance confirmed the overall criterion as: "in all significant respects, the audited body had proper arrangements to ensure it took properly informed decisions and deployed resources to achieve planned and sustainable outcomes for taxpayers and local people".

The three sub criteria for assessment to be able to give a conclusion overall are:

- Informed decision making
- Sustainable resource deployment
- Working with partners and other third parties

Details of our initial risk assessment to determine our approach are included in our Audit Plan. This is included as a separate agenda item.

We will report our work in the Audit Findings Report.

Other areas

Certification of claims and returns

The certification of your Housing Benefits return is no longer covered by Public Sector Audit Appointments Ltd and Councils need to appoint their own reporting accountants.

The Council has appointed Grant Thornton for this work in 2018/19 and 2019/20 and has notified the DWP accordingly.

Events

We provide a range of workshops, along with network events for members and publications to support the Council. Exeter City Council was represented at our Financial Reporting Workshop in Plymouth on 12 February.

These workshops are designed to ensure that members of your Finance Team are up to date with the latest financial reporting requirements for local authority accounts.

Further details of the publications that may be of interest to the Council are set out in our Sector Update section of this report.

Audit Deliverables

2018/19 Deliverables	Planned Committee Date	Status
Fee Letter We wrote to the Council's Chief Executive confirming the audit fee for 2018/19 in April 2018.	July 2018	Complete
Accounts Audit Plan We are required to issue a detailed accounts audit plan to the Audit and Governance Committee setting out our proposed approach in order to give an opinion on the Council's 2018/19 financial statements.	March 2019	Complete
Interim Audit Findings We will report to you the findings from our interim audit and our initial value for money risk assessment within our Progress Report.	March 2019	Complete
Audit Findings Report We plan to report to the July Audit and Governance Committee.	July 2019	Not yet due
Auditors Report We plan to report to the July Audit and Governance Committee.	July 2019	Not yet due
Annual Audit Letter This letter communicates the key issues arising from our work.	September 2019	Not yet due
Annual Certification Letter This letter will report any matters arising from our certification work carried out in 2018/19.	December 2019	Not yet due

Results of Interim Audit Work

The findings of our interim audit work, and the impact of our findings on the accounts audit approach, are summarised in the table below:

	Work performed	Conclusions and recommendations
Internal audit	<p>We have reviewed the reports issued to date by your Internal Auditors.</p> <p>We have written to Internal Audit regarding fraud and irregularities in accordance with the requirements of ISA 240.</p>	<p>Our review of internal audit's work to date has not identified any weaknesses which impact on our audit approach.</p>
Entity level controls	<p>We have obtained an understanding of the overall control environment with a focus on the areas that could affect the preparation of the financial statements including:</p> <ul style="list-style-type: none">• Communication and enforcement of integrity and ethical values• Participation by those charged with governance• Management's philosophy and operating style• Organisational structure• Assignment of authority and responsibility• Human resource policies and practices	<p>Our work has identified no material weaknesses which are likely to adversely impact on the Council's financial statements</p>

	Work performed	Conclusions and recommendations
Review of information technology controls	We will perform a high level review of the general IT control environment, as part of the overall review of the internal controls system.	Work has not yet been fully completed and will be a joined-up review for all organisations supported by Strata.
Walkthrough testing	<p>We have completed walkthrough tests of the Council's controls operating in areas where we consider that there is a risk of material misstatement to the financial statements.</p> <p>We performed walkthroughs for Journals, Operating Expenditure, Revaluations, Payroll and Pensions.</p> <p>Our work has identified control weaknesses in the areas of purchase authorisations and journals controls.</p> <p>No weaknesses were identified thus far in the design and implementation of controls relating to payroll, pensions and revaluations.</p>	<p>The control weaknesses identified in respect of journals are mitigated by additional checks performed by Council officers. This will be taken into consideration during our testing which will not vary significantly from the original plan.</p> <p>Our interim audit work identified that 80% of all Service expenditure is procured without the use of purchase orders. It is possible that orders (and the committal of the Council to the expenditure) are therefore not authorised until the point that invoices are received for payment.</p> <p>We are working with Council officers to fully understand the deficiencies in purchasing authorisations. This is likely to have a significant impact on our testing strategy.</p>
Journal entry controls	<p>We have reviewed the Council's journal entry policies and procedures as part of determining our journal entry testing strategy.</p> <p>A control weakness has been identified relating to users self-authorising journal entries. There is a heightened risk of the weakness affecting the financial statements but the Council have a mitigating control in place to review such journals.</p>	<p>The identified weakness in the journals authorisation process will be taken into consideration during testing.</p> <p>We will review the Council's internal checks to see if they are effective in detecting or correcting misstatements.</p> <p>Testing will be undertaken during final accounts audit.</p> <p>We recommend that there is a separation of duties for raising and authorising journals where practicable.</p>

Sector Update

Councils are tackling a continuing drive to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with audit committee members, as well as any accounting and regulatory updates.

Public Sector Audit Appointments – Report on the results of auditors’ work 2017/18

This is the fourth report published by Public Sector Audit Appointments (PSAA) and summarises the results of auditors’ work at 495 principal local government and police bodies for 2017/18. This will be the final report under the statutory functions from the Audit Commission Act 1998 that were delegated to PSAA on a transitional basis.

The report covers the timeliness and quality of financial reporting, auditors’ local value for money work, and the extent to which auditors used their statutory reporting powers.

For 2017/18, the statutory accounts publication deadline came forward by two months to 31 July 2018. This was challenging for bodies and auditors and it is encouraging that 431 (87 per cent) audited bodies received an audit opinion by the new deadline.

The most common reasons for delays in issuing the opinion on the 2017/18 accounts were:

- technical accounting/audit issues;
- various errors identified during the audit;
- insufficient availability of staff at the audited body to support the audit;
- problems with the quality of supporting working papers; and
- draft accounts submitted late for audit.

All the opinions issued to date in relation to bodies’ financial statements are unqualified, as was the case for the 2016/17 accounts. Auditors have made statutory recommendations to three bodies, compared to two such cases in respect of 2016/17, and issued an advisory notice to one body.

The number of qualified conclusions on value for money arrangements looks set to remain relatively constant. It currently stands at 7 per cent (32 councils, 1 fire and rescue authority, 1 police body and 2 other local government bodies) compared to 8 per cent for 2016/17, with a further 30 conclusions for 2017/18 still to be issued.

The most common reasons for auditors issuing qualified VFM conclusions for 2017/18 were:

- the impact of issues identified in the reports of statutory inspectorates, for example Ofsted;
- corporate governance issues;
- financial sustainability concerns; and
- procurement/contract management issues.

All the opinions issued to date in relation to bodies’ financial statements are unqualified, as was the case for the 2016/17 accounts.

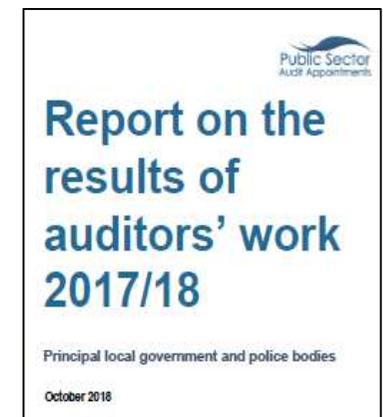

The report is available on the PSAA website:

<https://www.psa.co.uk/audit-quality/reports-on-the-results-of-auditors-work/>

PSAA Report

Challenge question:

Has your Authority identified improvements to be made to the 2018/19 financial statements audit and Value for Money Conclusion?

National Audit Office – Local auditor reporting in England 2018

The report describes the roles and responsibilities of local auditors and relevant national bodies in relation to the local audit framework and summarises the main findings reported by local auditors in 2017-18. It also considers how the quantity and nature of the issues reported have changed since the Comptroller & Auditor General (C&AG) took up his new responsibilities in 2015, and highlights differences between the local government and NHS sectors.

Given increasing financial and demand pressures on local bodies, they need strong arrangements to manage finances and secure value for money. External auditors have a key role in determining whether these arrangements are strong enough. The fact that only three of the bodies (5%) the NAO contacted in connection with this study were able to confirm that they had fully implemented their plans to address the weaknesses reported suggests that while auditors are increasingly raising red flags, some of these are met with inadequate or complacent responses.

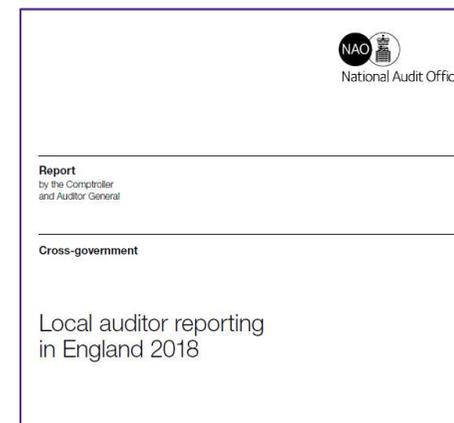

Qualified conclusions on arrangements to secure value for money locally are both unacceptably high and increasing. Auditors qualified their conclusions on arrangements to secure value for money at an increasing number of local public bodies: up from 170 (18%) in 2015-16 to 208 (22%) in 2017-18. As at 17 December 2018, auditors have yet to issue 20 conclusions on arrangements to secure value for money, so this number may increase further for 2017-18.

The proportion of local public bodies whose plans for keeping spending within budget are not fit-for-purpose, or who have significant weaknesses in their governance, is too high. This is a risk to public money and undermines confidence in how well local services are managed. Local bodies need to demonstrate to the wider public that they are managing their organisations effectively, and take local auditor reports seriously. Those charged with governance need to hold their executives to account for taking prompt and effective action. Local public bodies need to do more to strengthen their arrangements and improve their performance.

Local auditors need to exercise the full range of their additional reporting powers, where this is the most effective way of highlighting concerns, especially where they consider that local bodies are not taking sufficient action. Departments need to continue monitoring the level and nature of non-standard reporting, and formalise their processes where informal arrangements are in place. The current situation is serious, with trend lines pointing downwards.

The report is available on the NAO website:

<https://www.nao.org.uk/report/local-auditor-reporting-in-england-2018/>

NAO Report

Challenge question:

Has your Authority responded appropriately to any concerns or issues raised in the External Auditor's report for 2017/18?

National Audit Office – Local authority governance

The report examines whether local governance arrangements provide local taxpayers and Parliament with assurance that local authority spending achieves value for money and that authorities are financially sustainable.

Local government has faced considerable funding and demand challenges since 2010-11. This raises questions as to whether the local government governance system remains effective. As demonstrated by Northamptonshire County Council, poor governance can make the difference between coping and not coping with financial and service pressures. The Department (Ministry of Housing, Communities and Local Government) places great weight on local arrangements in relation to value for money and financial sustainability, with limited engagement expected from government. For this to be effective, the Department needs to know that the governance arrangements that support local decision-making function as intended. In order to mitigate the growing risks to value for money in the sector the Department needs to improve its system-wide oversight, be more transparent in its engagement with the sector, and adopt a stronger leadership role across the governance network

Not only are the risks from poor governance greater in the current context as the stakes are higher, but the process of governance itself is more challenging and complex. Governance arrangements have to be effective in a riskier, more time-pressured and less well-resourced context. For instance, authorities need to:

- maintain tight budgetary control and scrutiny to ensure overall financial sustainability at a time when potentially contentious savings decisions have to be taken and resources for corporate support are more limited; and
- ensure that they have robust risk management arrangements in place when making commercial investments to generate new income, and that oversight and accountability is clear when entering into shared service or outsourced arrangements in order to deliver savings.

Risk profiles have increased in many local authorities as they have reduced spending and sought to generate new income in response to funding and demand pressures. Local authorities have seen a real-terms reduction in spending power (government grant and council tax) of 28.6% between 2010-11 and 2017-18. Demand in key service areas has also increased, including a 15.1% increase in the number of looked after children from 2010-11 to 2017-18. These pressures create risks to authorities' core objectives of remaining financially sustainable and meeting statutory service obligations. Furthermore, to mitigate these fundamental risks, many authorities have pursued strategies such as large-scale transformations or commercial investments that in themselves carry a risk of failure or under-performance.

The report is available on the NAO website:

<https://www.nao.org.uk/report/local-authority-governance-2/>

NAO Report

Challenge question:

Has your Authority got appropriate governance and risk management arrangements in place to address the risks and challenges identified in the NAO report?

CIPFA – Financial Resilience Index plans revised

The Chartered Institute of Public Finance and Accountancy (CIPFA) has refined its plans for a financial resilience index for councils and is poised to rate bodies on a “suite of indicators” following a consultation with the sector.

CIPFA has designed the index to provide reassurance to councils who are financially stable and prompt challenge where it may be needed. To understand the sector’s views, CIPFA invited all interested parties to respond to questions it put forward in the consultation by the 24 August.

CIPFA has also responded to concerns about the initial choice of indicators, updating the selection and will offer authorities an advanced viewing of results.

Plans for a financial resilience index were put forward by CIPFA in the summer. It is being designed to offer the sector some external guidance on their financial position.

CIPFA hailed the “unprecedented level of interest” in the consultation.

Responses were received from 189 parties, including individual local authorities, umbrella groups and auditors. Some respondents called for a more “forward-looking” assessment and raised fears over the possibility of “naming and shaming” councils.

CIPFA chief executive Rob Whiteman said with local government facing “unprecedented financial challenges” and weaknesses in public audit systems, the institute was stepping in to provide a leadership role in the public interest.

“Following the feedback we have received, we have modified and strengthened the tool so it will be even more helpful for local authorities with deteriorating financial positions,” he said.

“The tool will sit alongside CIPFA’s planned Financial Management Code, which aims to support good practice in the planning and execution of sustainable finances.”

CIPFA is now planning to introduce a “reserves depletion time” category as one of the indicators. This shows the length of time a council’s reserves will last if they deplete their reserves at the same rate as over the past three years.

The consultation response document said this new category showed that “generally most councils have either not depleted their reserves or their depletion has been low”.

“The tool will not now provide, as originally envisaged, a composite weighted index but within the suite of indicators it will include a red, amber, green (RAG) alert of specific proximity to insufficient reserve given recent trajectories,” it said.

It also highlighted the broad support from the sector for the creation of the index. “There was little dissent over the fact that CIPFA is doing the right thing in drawing attention to a matter of high national concern,” it said.

“Most respondents agreed to the need for transparency – but a sizable number had concerns over the possibly negative impacts of adverse indicators and many councils wanted to see their results prior to publication.”

As such, CIPFA plans to provide resilience measurements first to the local authorities and their auditors via the section 151 officer rather than publishing openly.

CIPFA Consultation

Challenge question:

Has your Chief Finance Officer briefed members on the Council’s response to the Financial Resilience Index consultation?

ICAEW Report: expectations gap

The Institute of Chartered Accountants in England and Wales (ICAEW) has published a paper on the 'expectation gap' in the external audit of public bodies.

Context:

The expectation gap is the difference between what an auditor actually does, and what stakeholders and commentators think the auditors obligations might be and what they might do. Greater debate being whether greater education and communication between auditors and stakeholders should occur rather than substantial changes in role and remit of audit.

What's the problem?

• Short-term solvency vs. Longer-term value:

- LG & NHS: Facing financial pressures, oversight & governance pressures

• Limited usefulness of auditors reports:

'The VFM conclusion is helpful, but it is more about the system/arrangements in place rather than the actual effectiveness of value for money'

• Other powers and duties:

implementing public interest reports in addition to VFM

• Restricted role of questions and objections:

Misunderstanding over any objections/and or question should be resolved by the local public auditor. Lack of understanding that auditors have discretion in the use of their powers.

• Audit qualification not always acted on by those charged with governance:

'if independent public audit is to have the impact that it needs, it has to be taken seriously by those charged with governance'

• Audit committees not consistently effective:

Local government struggles to recruit external members for their audit committees, they do not always have the required competencies and independence.

• Decreased audit fees:

firms choose not to participate because considered that the margins were too tight to enable them to carry out a sufficient amount of work within the fee scales.

• Impact of audit independence rules:

new independence rules don't allow for external auditors to take on additional work that could compromise their external audit role

• Other stakeholders expectations not aligned with audit standards

- **Increased auditor liability:** an auditor considering reporting outside of the main audit engagement would need to bill their client separately and expect the client to pay.

Future financial viability of local public bodies

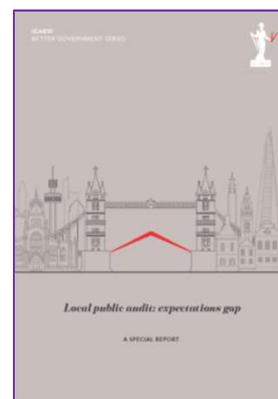

Local public bodies are being asked to deliver more with less and be more innovative and commercial. CFOs are, of course, nervous at taking risks in the current environment and therefore would like more involvement by their auditors. They want auditors to challenge their forward-looking plans and assumptions and comment on the financial resilience of the organisation..

The ICAEW puts forward two solutions:

Solution a) If CFO's want additional advisory work, rather than just the audit, they can separately hire consultants (either accountancy firms not providing the statutory audit or other business advisory organisations with the required competencies) to work alongside them in their financial resilience work and challenging budget assumptions.

Solution b) Wider profession (IFAC, IAASB, accountancy bodies) should consider whether audit, in its current form, is sustainable and fit for purpose. Stakeholders want greater assurance, through greater depth of testing, analysis and more detailed reporting of financial matters. It is perhaps, time to look at the wider scope of audit. For example, could there be more value in auditors providing assurance reports on key risk indicators which have a greater future-looking focus, albeit focused on historic data?

More information can be found in the link below (click on the cover page)

The expectations gap

Challenge question:

How effectively is the audit meeting client expectations?

Brexit Room - Increasing readiness and resilience within your locality

Local authorities have always navigated uncertainty and faced challenges on behalf of communities and this role has never been more important than now. Whilst the outcome of Brexit remains uncertain at a national level, it is essential for councils to set a path to ensure the continued delivery of vital services and the best possible outcomes for their local communities and economies. Whatever happens over the coming weeks and months, it is important that councils identify key Brexit scenarios and use these to frame robust local contingency plans.

From our conversations with the sector we know that local authorities are at different stages in their preparation for this big change.

Here's a brief summary of the issues that we are seeing:

Organisations

- Engaging non-EEA nationals within the workforce to ensure they understand their residency rights and are not receiving incorrect information from other sources
- Loss of access to key EU databases on policing and trading standards and changes to data sharing arrangements
- Uncertainty around continuation of EU funding beyond 2020 and the implementation of the UK Shared Prosperity Fund.

Services and suppliers

- Engaging with key suppliers to assess their risk profiles and resilience
- Dealing with the immediate strain on key services such as social care and trading standards
- Potential disruption to live procurement activities and uncertainty around the national procurement rulebook post OJEU.

Place

- Considering scenarios for economic shock, the associated social impact in the short, medium and long-term and the potential impact on local authority financial resilience
- Potential impacts on major local employers, key infrastructure investment programmes and transport improvements
- Civil contingencies and providing reassurance and support to residents and businesses.

Our approach

The Brexit Room is a flexible and interactive half-day workshop designed to sharpen your thinking on the impact Brexit could have on:

Your organisation – including considerations on workforce, funding, and changes to legislation

Your services and suppliers – ensuring that critical services are protected and building resilience within supply chains

Your place – using our proprietary Place Analytics tools we will help you to understand potential impacts on your local communities and economy and develop a place-based response, working with partners where appropriate.

We can work with you to identify key risks and opportunities in each of these areas whilst building consensus on the priority actions to be taken forward. You will receive a concise and focused write-up of the discussion and action plan to help shape the next stages of your work on Brexit.

For more information, follow the link below:

<https://www.grantthornton.co.uk/insights/brexit-local-leadership-on-the-front-line/>

Brexit

Challenge question:

How well advanced are your authority's plans for Brexit?
