

APPENDIX E

Summary of Revisions

Following the analysis of consultation feedback the Council is recommending the following revisions to the Draft Physical Activity Strategy

Current Page no.	Current	Proposed
Front Cover	Draft Physical Activity Strategy January 2019	Physical Activity Strategy July 2019 Photo updated
2	Photo	Foreword from the Leader
4	Photo	Photo updated
5	An additional document Exeter City Council's Built Facilities, Playing Fields, Pitches, Parks and Open Spaces Report (Jan 2019) sets out how the City Council intends to promote physical activity through exercise and sport in its own built facilities, pitches, playing fields, parks and open spaces. This will be consulted on alongside this strategy.	We will promote the benefits of active environments as a way to encourage physical activity in everyday life through 'Liveable Exeter' our transformational housing vision. We will apply active design principles within our own developments and will encourage others to do so.
7	children and adolescents	young people
8	UK guidelines	Chief Medical Officer guidelines
12		Added (Accurate at time of going to press)
13	Location of high-risk mosaic types containing high levels of working age adults with no dependent children, deprivations and / or physical activity	Locations containing high levels of working age adults with no dependent children, deprivation and / or physical activity Simplified maps and legend removed
14	Location of high-risk mosaic types containing high levels of frailer individuals, deprivations and / or physical inactivity	Locations containing high levels of frailer individuals, deprivation and / or physical inactivity Simplified maps and legend removed
21	2. Reduce inequality in participation: when planning and prioritising interventions recognise that the largest health gain occurs with improvements made by the least active	2. Reduce inequality in participation: focussed approach which recognises that the largest health gain occurs with improvements made by the least active
	4. Connect people with physical activity:	4. Connect people with physical activity:

	ensure physical activity opportunities are available and promoted across the life course	ensure physical activity opportunities are available and promoted for all ages
	6. Create a physical activity habit: recognise the importance of habit formation and the contextual nature of physical activity behaviour in the design of interventions	6. Create a physical activity habit: recognise the importance of habit formation and behaviour change required for least active residents
	7. Make it fun: encourage providers of physical activity to promote fun, enjoyment and autonomy, helping people to build it into their everyday lives	7. Make it fun: encourage providers of physical activity to promote fun and enjoyment, helping people to build it into their everyday lives
	8. Consistent Communications: about the benefits, opportunities and support available for physical activity choices in Exeter	8. Consistent Communications: clear messages about the benefits, opportunities and support available for physical activity choices in Exeter
	9. Make it visible: Portray physical activity as a normal part of everyday life across the lifespan	9. Make it visible: Portray physical activity as a normal part of everyday life
	11. Evidence and evaluation: ensure interventions are underpinned by best practices and the impact of service delivery is robustly evaluated using process, output and outcome measures.	11. Evidence and evaluation: embed an analytical approach to programme design and implement a robust evaluation process
25	Sport England is investing around £100 million across 12 local pilots over 4 years to create innovative solutions making it easier for people in communities to access physical activity,	Sport England is investing around £100 million across 12 local pilots over 4 years to create innovative solutions making it easier for people to become physically active.
	We will use the opportunity of the investment and expertise from the Sport England Pilot to ensure that the long term Housing Transformation Plan for the city is underpinned by the 10 Active Design Environmental Principles advocated by Sport England and Public Health England (Active Design Planning for health and wellbeing through sport and physical activity).	We will use investment and expertise from the Sport England Pilot to ensure that the “Liveable Exeter” Transformational Housing Delivery Programme for the city is underpinned by the 10 Active Design Environmental Principles advocated by Sport England and Public Health England (Active Design Planning for health and wellbeing through sport and physical activity).
	These principles will also be used to influence a new project aimed at tackling our strategic infrastructure issues announced in December 2018 by the National Infrastructure Commission (an independent body tasked with providing clear advice to the Government on how best to meet the country’s long-term infrastructure needs). Exeter is one of the	These principles will also be used to influence a new project aimed at tackling our strategic infrastructure issues announced in December 2018 by the National Infrastructure Commission. Exeter is one of the five cities selected to work with the Commission to help us to develop strategies to improve local
