

COUNCIL 21 JULY 2020
EXECUTIVE – MINUTE NO 73

AMENDMENTS TO EMERGENCY BUDGET 20/21

Amendments to the proposed budget by the Progressive Group

Amendment 1

To introduce parking charges at all Leisure Centres and public open space car parks in the City, where a charging structure is not currently in place. All income generated after covering the costs associated with introducing the measures are to be earmarked for Housing Needs and Homelessness services.

Amendment 2

That any financial assistance from the Government this financial year to compensate for loss of income be allocated to restore the cuts proposed in the pending budget (July 2020). The Executive Committee should determine as funds become available the priorities for restoration within the original approved 2020/21 Budget. That the proposed £1million delegated fund should only be used in regard to reducing the impact of budget reductions or Covid 19 and not be used to fund the development of new projects.
