

Exeter City Council

Code of Corporate Governance

2021-22

Scope of Responsibility

Exeter City Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. The Council also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.

In addition to meeting statutory obligations and organisational objectives, the Council's governance framework is required to meet the following seven principles of good governance:

1. Behaving with integrity, demonstrating strong commitment to ethical values, and respecting the law
2. Ensuring openness and comprehensive stakeholder engagement
3. Defining outcomes in terms of sustainable economic, social and environmental benefits
4. Determining interventions necessary to optimise the achievement of the intended outcomes
5. Developing the Council's capacity. Including the capability of its leadership and individuals within it
6. Managing risk and performance through robust internal control and strong public financial management
7. Implementing good practices in transparency, reporting and audit to deliver effective accountability

In discharging this overall responsibility, the Council is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, including arrangements for the management of risk. The Council has approved and adopted this Code of Corporate Governance, which is consistent with the principles of Delivering Good Governance in Local Government (CIPFA/Solace 2016) and which identifies the systems, processes and documents that contribute to the Council's governance arrangements

The Purpose of the Governance Framework

The governance framework comprises the systems, processes, culture and values, by which the authority is directed and controlled together with activities through which it accounts to, engages with and leads the community. It enables the authority to monitor the achievement of its purposes and to consider whether those purposes have led to the delivery of appropriate, cost-effective services.

The Council's system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can, therefore, only provide reasonable and not absolute assurance of effectiveness. There is an ongoing process designed to identify and prioritise risks to the achievement of Council policies, aims and objectives, to evaluate the likelihood and impact of those risks being realised and to manage them efficiently, effectively and economically.
