Notice of Motion

14 Notice of Motion by Councillor Bull under Standing Order No. 6.

The Council notes:-

- (1) already one in four households in the UK are in fuel poverty, meaning they need to spend more than 10% of their income on keeping their homes warm. The problem is likely to get worse, with one in three households projected to be in fuel poverty by 2016;
- (2) the main reasons for this crisis are that gas, oil and coal prices are high and the UK's homes are some of the most energy inefficient in Europe – leaking heat from their doors, walls and windows;
- (3) cold homes are damaging the health of vulnerable members of society, including children, older people and people with disabilities. Diseases such as asthma are made worse and people are more likely to have strokes and heart attacks. Illnesses caused by cold homes cost the NHS nearly one billion pounds each year; and
- (4) over the next 15 years the Government will raise an average of £4 billion every year in carbon taxes through the European Emissions Trading Scheme and the Carbon Floor Price. Re-cycling this revenue back into households could bring nine out of ten homes out of fuel poverty, lower people's bills, cut carbon emissions and create jobs.

The Council therefore resolves to:-

- (1) support the Energy Bill Revolution campaign calling for the Government to re-cycle revenues from carbon taxes into improving the energy efficiency of UK homes; and
- (2) notify local Members of Parliament of its support for the campaign and urge them to support the campaign by emailing [MPsupporters@energybillrevolution.org](mailto:MPsupporters@energybillrevolution.org).

Date: 8 October 2013

Karime Hassan  
Chief Executive &  
Growth Director

**NOTE: Members are asked to sign the Attendance Register**
