Dear [REDACTED]

**Local Government (Miscellaneous Provisions) Act 1976**  
**Hackney Carriage Licence No.: [REDACTED] - Expires 31 May 2026**

According to our records your Hackney Carriage Vehicle licence is due to expire on **31 May 2026**. If you wish to renew your vehicle licence please ensure that you send the required documents to [licensing.team@exeter.gov.uk](mailto:licensing.team@exeter.gov.uk), leaving a minimum of 14 days for us to process your application before the date of expiry. Required documents include:

1. Completed renewal application (enclosed)
2. The vehicle registration document
3. An MOT certificate that is not more than (3) three months old. All advisories to have been completed (evidence to be supplied)
4. A current certificate (or cover note) of insurance for the vehicle
5. Taxi Meter & CCTV compliance certificate

These can be scanned or photographs of the original documents, but they must be clear and easy to read.

**Once we have your documents we will process your renewal and call you for payment. We will also arrange for you to bring your vehicle in for inspection.**

If your licence is not renewed by the expiry date shown on the licence then the application will be treated as a new application. This may mean that your vehicle cannot be licensed.

**Colour and Livery**

Please ensure that your Hackney Carriage has the correct livery in place and the livery is in the correct colours and looks tidy. Make sure that the vehicle has two door crests on the front doors and you have three bus lane stickers and the stickers are placed correctly on the rear and on the rear panels of the vehicle.

**CCTV**

In-cab CCTV is mandatory and must be in working order when presented for inspection.

**Parking**

Please note that parking is now restricted at the rear of the Civic Centre. We only have access to a single parking space there now, and this is valid only for your 30 minute appointment slot. Failure to park within the designated parking bay may lead to you receiving a £50 penalty notice.

Yours sincerely

*Licensing Team*

**Private Hire Vehicle Renewal Procedure:**

Licenses for Private Hire vehicles are issued for a maximum of 12 months at any one time. Vehicles presented for renewal that are less than 8 years old can be renewed by Licensing Officers under delegated powers.

Vehicles presented for renewal that are between 8 and 9 years old can be renewed by Licensing Officers under delegated powers provided that the vehicle is presented for inspection in a satisfactory condition, and a comprehensive report provided into the mechanical fitness of the vehicle has been undertaken by the AA, RAC, or DEKRA, or any other approved engineer, and any essential works identified have been carried out and evidence provided to establish this. If Officers are in doubt as to the fitness or suitability of a vehicle to carry on as a licenced vehicle then they shall refer the application to the Sub-committee for determination.

Vehicles presented for renewal that are between 9 and 10 years old will be referred to the licensing sub-committee for determination. Applicants will be advised to provide a comprehensive report into the mechanical fitness of the vehicle as outlined above.

*Vehicles presented for renewal that are more 10 years old, shall not be granted. However the applicant will be given the right to apply for the application to be considered by a licensing sub-committee if they feel that their particular circumstances justify a deviation from the existing Policies.*

### 6 New keeper slip – must be given to the new keeper

V5C-0119

Do not send this slip to DVLA on its own – you won't get a V5C.

You, the new keeper, must ensure the vehicle is taxed before you drive it.

You will be fined if our records show that the vehicle is not taxed, insured or no Statutory Off Road Notification (SORN) has been made.

It's quick and simple to tax online at: [gov.uk/vehicle-tax](http://gov.uk/vehicle-tax) or tax at a Post Office\* using this slip.

Declare the vehicle off road online at: [gov.uk/make-a-sorn](http://gov.uk/make-a-sorn)

You should receive your new V5C within 4 weeks of the registered keeper giving us your details.

If you do not receive your V5C, you'll need to fill in a V62 form to apply for a new one. Send it, with this slip, to DVLA, Swansea, SA99 1DD. Make sure the date of sale/transfer box is filled in.

For more details on this vehicle go to: [gov.uk/get-vehicle-information-from-dvla](http://gov.uk/get-vehicle-information-from-dvla)

WHEELS AND TYRES Type: Steel					
It is recommended tyres be replaced when the tread depth reaches 2mm. If uneven tyre wear is noted, this may indicate incorrect geometry, which can result in excessive and rapid tyre wear. A full steering and geometry check is recommended.

145. ROAD TEST					
The road test has been undertaken within the speed limits and prevailing traffic conditions in the locality of the inspection. If a road test has not been carried out, please refer to the engineer's comments page.					
*If the vehicle is fitted with 4wd transmission then the systems have been checked for security, leakage and excessive noise. However, within the limitations of the road test the full functionality could not be checked.

\*\* It should be carefully noted that the life expectancy of clutches is uncertain and difficult to predict, being dependant on owners driving style, vehicle operation and terrain. The fact that the clutch has not been identified as faulty/slipping/juddering/noisy on the report does not and should not be taken to imply that the clutch assembly will have a continuing life expectancy from the time of our check. They can begin to slip at any time.

FINAL CHECK					
167. Oil leaks	No	168. Coolant leaks	No	169. Uneven tyre wear	No

### Vehicle documents and Inspection environment notes.

Engineer Indicate with "X" as applicable.

#### Registration Document (V5):

- No registration document was seen with the vehicle and you are advised to satisfy yourself that the vehicle identification number and engine number (where quoted) correspond to those shown on this report. Warning: **DO NOT BUY ANY VEHICLE WITHOUT A V5.**
- The V5/Registration Document shows \_\_\_\_\_ previous keeper(s), the last change of Keeper on \_\_\_\_\_

#### Security:

- The Master Key was not available. Please ensure this is supplied if the vehicle is purchased.
- The engineer recommends that relevant spare and service keys be obtained prior to purchase.
- Obtain hand books and radio codes for vehicle prior to purchase as these were not seen in the vehicle.

#### M O T:

- As only a small amount of time is left on the MOT Certificate (less than 3 months) the engineer recommends a full year's MOT be obtained prior to purchase.
- A 12 Month MOT Certificate has been seen with the vehicle.

#### Servicing:

- The service history seen, indicated that the last recorded service was carried out at miles. No immediate servicing is necessary. Next service is due as per manufacturer's recommendations or as per the Vehicles Service indicator.
- The service history seen, indicated that the last recorded service was carried out on miles. Therefore the engineer would suggest a full service and brake inspection to the manufacturer recommendations prior to purchase, which may reveal further defects not apparent at this examination.
- No service documentation seen with this vehicle, therefore the engineer would recommend a full service and brake inspection to the manufacturer's recommendations prior to purchase, which may reveal further defects not apparent at this examination.

#### Inspection conditions notes:

- No vehicle hoist/ramp was available. A large trolley jack and stands were used in order to carry out underside checks. This limits the view of the underside. Some areas could not be fully seen. There *may* be further defects, which may be visible given clear access and view.
- The body/paintwork was wet/dirty/dusty this severely restricts inspection of the paintwork. Please note that there may be other defects present, which were not visible due to the obscured paintwork, but which may become visible once dry and clean.

Report No: 10532

## Engineers Comments

The vehicle is considered overall to be a fair and reasonable example of the type, being in a generally reasonable condition and generally considered to be consistent with the type for the age and indicated recorded mileage in most areas.

The items listed as "could not be checked" (---) normally indicate items were obscured by covers/shields or other equipment.

The Water pump – Engine drive belt/chain - these items could not been fully examined, as covers, trims and other equipment obscure them.

The cooling system was pressure tested to 0.7 bars, no pressure loss was noted on the system or pressure cap. The antifreeze concentration was acceptable, but has deteriorated from its original strength and at the next routine service may need to be refreshed/replaced. It is advised that the coolant strength be checked again at the next routine service. Antifreeze only has a 2/3-year life and requires its strength adjusting after this time or replacing as per manufacturer's specifications.

The vehicle is fitted with vented front brake disc and pads, supported at the rear by a single arrangement. Although the visible brakes only show some signs of general serviceable wear, some deterioration is noted, which will need attention in the near future. It is strongly advised to remove all road wheels and examine the inner brake components, which are obscured on this vehicle prior to purchase, replacing any worn or badly corroded parts. It is probable that the front brakes at least, will need to be replaced at the next routine service.

The steering & suspension has been assessed to MOT standard. This allows for a degree of wear and deterioration of components without rendering them unserviceable. The extent of wear is not considered excessive at this juncture and unlikely to attract MOT failure.

The road test distance and or top speed was limited due to the general area/inspection location, and/or traffic levels and/or adverse weather conditions and/or lack of fuel when the vehicle was tested and driven. Comment cannot be made in these instances in relation to possible "high speed" or "sustained speed," related driving defects, which may become apparent at a later stage after any purchase due to these limiting conditions.

### PLEASE READ CAREFULLY

- You are strongly advised to discuss the findings of this report with the vendor prior to making your decision to purchase the vehicle.
- Essential repairs should be investigated and rectified prior to purchase. These may be costly.
- Advisable repairs may prove costly to repair and must be considered prior to purchase.
