<p>Elizabeth McAlpine: Elizabeth McAlpine works mainly with time-based media and describes her working practice as close to geology. The exhibition includes video work, a sound installation and sculptural and photographic pieces.</p> <p><i>'Quintet'</i> is a sound installation of spliced together coloured vinyl records that, whilst rotating, generate the illusion of three-dimensional dynamic objects. McAlpine's selection of records, based purely on colour, works as an audio-collage, jumping from one track to another at 33rpm, just as the eye jumps from spinning colour to moving object. The exhibition will also showcase new work from the artist.</p>	10 March - 5 May 2007	Spacex	41 days open to the public	8 weeks (of which 3 are in current year 06 -07)	<p>Estimated Attendance:</p> <p>2800 (1200 in current year)</p> <p>This exhibition will also allow Spacex to build on relationships with Laura Bartlett Gallery, London and Frieze Art Fair.</p> <p>The exhibition has been programmed to coincide with the Vibraphonic Festival, Exeter and will benefit from this partnership.</p>	<p>Laura Bartlett Gallery, London</p> <p>Vibraphonic Festival, Exeter</p>

<p>Curatorial Residency The curatorial residency will be undertaken by Sergio Edelsztein, Director of Center for Contemporary Art, Tel Aviv. Edelsztein will undertake a 3 week research based residency looking at into the development of a critical mapping of the art world focusing on curatorial enterprises that are perceived by the general public as “representative” of foreign cultures surveying selected art events; specifically the Biennales and survey-shows of the past years. The result of the research will then be disseminated in the public domain in the form of a seminar held in Exeter and via the internet on the South West Curatorial Network website. There will be several bursaries made available for curators from the South West to cover travel costs to attend the seminar.</p>	<p>4 - 25 April 2007</p>	<p>SpaceX and Dartington College of Arts</p>	<p>22 days residency (during this time the curator will collaborate with others) 1 day seminar open to the public</p>	<p>3 weeks</p>	<p>Estimated Attendance: 100</p>	<p>South West Curatorial Network Center for Contemporary Art, Tel Aviv Dartington College of Arts</p>

<p>Peter J Evans Fascinated by systems and patterns, Peter J Evans explores how such structures can be found even in supposed chaos. Ideas about movement, memory, time, the un-quantifiable, and aesthetic beauty inform his practice.</p> <p>He plans to create new site-specific work for SpaceX. This will be Peter J Evans' first solo exhibition in the UK and a touring exhibition initiated by SpaceX. The exhibition will travel to Seventeen, London. It is also proposed that the artist undertakes a series of off-site performances, we are trying to collaborate with Frieze Art Fair (off-site programme) for this to profile the work at a major international event other performances throughout the UK.</p> <p>The exhibition will be accompanied by a catalogue.</p>	<p>19 May – 14 July 2007</p> <p>29 Aug – 6 Oct 2007</p>	<p>Spacex</p> <p>Seventeen Gallery, London</p> <p>And other venues tbc</p>	<p>41 days open to the public at Spacex</p> <p>35 days open to the public at Seventeen Gallery</p> <p>With further dates tbc</p>	<p>8 weeks (at Spacex)</p> <p>6 weeks (at Seventeen)</p>	<p>Estimated Attendance: 2800 at Spacex</p> <p>3500 at Seventeen</p> <p>With additional activates tbc</p>	<p>Seventeen Gallery, London</p>

<p>Summer Show /Events Programme The 'summer' show will be programmed slightly differently this year, given the difference in audiences around this holiday season. As it currently stands we will hold two weeks of events based activities for all different ages from 28 July – 11 August.</p> <p>The events will take place over different times throughout the two weeks and include some evening activities. We aim to work with artists with whom we already have a strong relationship with and others new to SpaceX.</p> <p>The two weeks will offer up a varied programme including; film screenings, workshops, talks and discussions, performances, artist-led activities etc.</p>	28 July – 11 August 2007	Spacex Also off-site tbc	11 days open to the public	2 weeks	Estimated Attendance: 500

<p>Geoffrey Farmer An exhibition by Canadian based artist, Geoffrey Farmer is being developed with The Drawing Room, London. Farmer is a mid-career artist based in Vancouver, whose career has taken off in North America, but is yet to have a solo show in the UK, despite growing interest.</p> <p>Farmer's work fits within the territory of Mike Nelson and Thomas Hirschhorn's practice, whereby the artist responds to each institution he works with and the final 'product' is always in mutation. Each venue will display a unique version of the new work, often with a different curatorial intervention.</p> <p>Farmer will also be showing work as part of a group exhibition at Tate Modern in October 2007, which will be timely for the exhibition at Spacex.</p>	6 Oct – 1 Dec 2007	Spacex	41 days open to the public	8 weeks	2800	The Drawing Room, London NCGA, Sunderland Arts Council England

<p>Cory Archangel The first UK tour of New York based artist Cory Arcangel co-ordinated by Film and Video Umbrella. This exhibition will be timed to coincide with the Animated Exeter festival and will offer up a wide variety of possibilities for collaborative projects and related events.</p> <p>Cory Arcangel is proposing to take a baroque fugue composition from the 1600s, and recreate it by using instrumental videos uploaded to the popular video sharing website youtube.com. So each line of the original fugue will be its own projection and every note will be played by a different snippet of instrumental video. It is also planned that Arcangel will visit Spacex to conduct a talk, workshop, demonstration and/or performance as part of the tour.</p>	15 Dec 2007 – 23 Feb 2008	Spacex	48 days open to the public	10 weeks	Estimated Attendance: 2800	Film and Video Umbrella Max Wigram Gallery, London NCGA Sunderland Castlefield Gallery, Manchester

<p>X-Panel Plus This project, builds upon the success of last year's X Panel project, in which a group of young people were involved in curating an exhibition for the gallery. This year we will be working with disadvantaged young people who will need a higher level of training and support. The project will result in an exhibition or event in early 2008, which we hope will form a part of the Animated Exeter and Spacex programme. Participants will also be able to take an bronze level arts award, which is recognised as a national qualification.</p>	April 2007- March 2008	Spacex and various off site locations	30	45	30	Arts award Devon Community Foundation (funders) HSBC Bank (funders)
