1. I am an Environmental Health Technician of Exeter City Council. I have responsibilities for the investigation and enforcement of statutory nuisance in residential settings, as defined under section 79 of the Environmental Protection Act 1990.
2. On 29th July 2022, due to experience of fitting many dozens of our noise recording equipment known as the Matron, I offered to fit this equipment for my colleague Alice Hasted.
3. I fitted the matron into [REDACTED], Exeter, shortly after 1400 on 29th July 2022. The device was fitted into the dining room of the property on the ground floor.
4. The matron was collected from [REDACTED], Exeter, on 3rd August 2022 following which I returned it to our office and begun its analysis which can be viewed in the separate analysis document.
5. The analysis document should be considered in its entirety but as a brief summary, loud music was heard throughout the recordings and individual songs were easily identifiable. The bass level was often substantial.
