Subject: Licence hours Sandy Park

Dear Sirs/Madam

I object to this application for extending licensing hours OUTSIDE, I live very close by the Stadium. When events are on, customers are very noisy, pee in the bushes have no respect for the local residents on whose estate they walk through to get to venue.

We already have an issue with patrons using estate as a taxi rank and parking area whilst attending on match days.

Our estate is residents parking only.

The use of this venue for more large scale outside events will cause more traffic problems, noise and litter. I have doubt the venue will be supervised but what happens on the estates when leave venue ?????? No supervision, they have to walk past my house to go to train station, they decide to use the entrance to my drive as a taxi rank. I also get beer cans and litter thrown over my hedge.

Don't see the need for license to be given 7 days a week.

Chris and Ann Hazelwood

Sir/Madam

I would like to object to the above change in licensing.

First, excess noise. We can hear the tannoy announcements and crowd at rugby games in out lounge. This is fine as it's only for a few hours in the day time. But the thought of loud music going on till late in the evening will be horrendous.

Second, car's racing up and down Bishops way. Before and after rugby games, lots of cars drop people off, and pick people up by the footpath by the bridge to the rugby ground. These drivers often speed, beep their horns and keep their engines running. This would undoubtedly happen at large events at the ground. This would wake children and disturbed the residents here.

Third, general littering and unsociable behaviour. There are no toilets between Sandy Park and Digby Sowton train station. I have witnessed often people urinating in peoples gardens and on the footpath to the station. Plus even though there are bins chucking bottles and rubbish in the bushes. This would undoubtedly happen after a gig or boxing match. I know residents of Bishops Way have written to the rugby club on this issue. The club had no interest in this matter.

I would prefer my personal details not to be made public.

Regards

David Dewar
