**Subject:** Extreme Events Ltd - Northernhay Gardens

Hello,

I'm a resident local to Northernhay Gardens. I love the gardens, they're very beautiful and a peaceful spot right in the heart of the city.

So I was a bit nervous to learn about the Extreme Events application... Not quite sure how one fits a funfair in Northernhay Gardens, but my main concern was the "Recorded Music 10am - 10pm". The shape of Northernhay means that sound comes loud and clear a long way (e.g. I can always clearly hear the outdoor cinema from the top of Hoopern St) and 10am-10pm recorded music (presumably the same 10 Xmas songs on repeat?! Or Xmas muzak?) every day for a month before Christmas sounds like purgatory.

Perhaps there's something that could be done with dB restrictions or could the time be reduced? Otherwise I worry that everyone living/working within a mile of the park will go mad.

Thanks
