1	<p>Delivering against the key challenges in the Net Zero Carbon City section of the Corporate Plan</p> <p>Challenges:</p> <ul style="list-style-type: none"> • GHG emissions in Exeter were on a downward trajectory with emissions down by a third from 2008 to 2019. This reduction is largely due to the reduction in the carbon intensity of the national electricity grid. There has been a 64% reduction in emission from the power sector (with most generation plant located outside Exeter) between 2007 and 2019. It is concerning that emissions from buildings and transport are exceeding targets set for 2020 and the lack of progress in these sectors, combined with growth in the city, will potentially lead to increases in emissions. Significant work to reduce emissions from buildings and transport will be required to deliver Net Zero for the City. • Limited resources available for city wide net zero activity. • A reliance on government funding to reduce city wide carbon emissions. • The need for city wide partnership working to deliver the Net Zero Exeter 2030 Plan • Cost of living challenges (for both businesses and residents) impacting the speed of change <p>Potential Impacts:</p> <ul style="list-style-type: none"> • Exeter does not meet its citywide target of becoming Net Zero by 2030.

	November 2019 Feb 2025 Updated by Strategic Director Place	PH - Climate, Ecological Change & Communities Officer Lead: Strategic Director for Place	4	4	16	We are working with the University of Exeter and Devon County Council to support their work in this area and focusing on reducing city wide carbon emissions. Our internal carbon net zero plan is now the subject of a separate risk register presented half yearly to the Audit & Governance Committee by the Project Manager for Net Zero.	4	4	16	With future updates presented every 6 months to Strategic Scrutiny on activity and progress. Exeter Energy Ltd (1Energy) presented an overview of the proposed Exeter Energy Network (EEN) to members. 1Energyhas consulted on proposals for an Energy Centre, located at Grace Road Field, Water Lane. Executive has agreed in principle, to the disposal of land at Grace Road Field to build the Energy Centre. A final decision will be made once the 1Energy's planning application has been determined. The City Council has received a report from the University which evaluates the measures needed to achieve Net Zero and estimates the costs for each service under different scenarios. The report and the City Council's response will be presented to Strategic Scrutiny, following consideration by Executive. A bid for PSDS funding for the Riverside Leisure Centre has been submitted.	Apr-30

9	<p>Progressing the design and delivery of a corporate Customer and Digital Strategy</p> <p><u>Challenges</u></p> <ul style="list-style-type: none"> • Digital technology continues to change the way people live, connect and work and this shift has been expedited by the Covid-19 pandemic. Digital technology continues to evolve at a rapid pace and for many have become an essential part of everyday life. • People expect easy access to joined-up information and efficient, secure services in the palm of our hand; increasingly expecting to interact with organisations wherever they like, whenever they like, on whichever device they have and on whatever channel they choose. • With customer behaviour changing faster than ever, the task of digital transformation demands significant changes to people, processes and technology. Our key challenges are the pace and scale of transformation needed in business processes; functional and organisational structures; culture; skills and resources within the Council and within and between Strata and our partner councils. • We are currently lagging many other Councils in our development of digital services and how we engage with our customers to improve and develop them. We have identified this as a priority to address in the One Exeter programme. <p><u>Potential Impacts</u></p> <ul style="list-style-type: none"> • Failure to agree and implement the required level of organisational change will impact on the ability of the Council to deliver a balanced MTFP which requires transformational change in how services are delivered. • Workforce and service delivery models not meeting the needs of customers leading to poor outcomes and inefficient, unaffordable services. • High levels of agency and consultancy spending. • Low staff morale and poor recruitment and retention

- Loss of reputation of the Council

April 2024: New risk: Cyber Security: There is increased global concern about the use of AI and emerging technologies for malign purposes. Whilst there are no specific new threats nationally or regionally in relation to Local Government and we have no specific concerns about current systems and processes, Strata Directors have requested the company to undertake a risk awareness and management workshop with the Directors of all 3 Councils to provide assurances that there is sufficient capability and capacity to understand and mitigate risks and respond should a "never event" occur. This process is due to complete in October 2024 and until this process has been completed and assurances /action plans adopted this issue will remain on the Corporate Risk Register.
